### DETAILED ACTION

Please Note: The last claim was presented without a number. This claim has been numbered as claim number 20, according to 37 CFR 1.126 (see MPEP 608.01[j]).

#### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5 and 11-16, drawn to methods for treatment or prevention of an angioproliferative condition, classified in class 424, subclass 94.63.
- II. Claims 6-10, drawn to compositions comprising a proteinase, classified in class 435, subclass 219.
- III. Claim 17, drawn to a method for potentiating the effects of a chemotherapeutic, classified in class 424, subclass 94.3.
- IV. Claim 18, drawn to a method for preventing the implantation or sustenance of a fertilized ovum, classified in class 424, subclass 94.63.
- V. Claim 19, drawn to a method for inhibiting endothelial cell migration, classified in class 435, subclass 380 or class 514, subclass 44.
- VI. Claim 20, drawn to a method for reducing cell-cell adhesion, classified in class 424, subclass 94.63 or class 514, subclass 44.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and I and III-VI are related as product and processes of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be

Art Unit: 1642

used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the protease of Group I can be used in the materially different process of digesting tissues.

The methods of Groups I and III-VI are for different purposes, have different outcomes, and/or utilize different components.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brenda Brumback whose telephone number is (703) 306-3220. If the examiner cannot be reached, inquiries can be directed to Supervisory Patent Examiner Anthony Caputa whose telephone number is (703) 308-3995. Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0196. Papers related to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Examiner Brenda Brumback, Art Unit 1642 and should be marked "OFFICIAL" for entry into prosecution history or "DRAFT" for consideration by the examiner without entry. The Official FAX telephone number is (703) 872-9306 and the After Final FAX telephone number is (703) 872-9307. FAX machines will be available to receive transmissions 24 hours a day. In compliance with 1096 OG 30, the filing date accorded to each OFFICIAL fax transmission will be determined by the FAX machine's stamped date found on the last page of the transmission, unless that date is a Saturday, Sunday or Federal Holiday with the District of Columbia, in which case the OFFICIAL date of receipt will be the next business day.
